Liquid Lamination for Sustainable Retail and Point-of-Sale Graphics

Description

Sustainable & Eco Friendly Coatings For Retail and Point-of-Sale

Immediate impact

Protecting the interiors for Retail and Point of Sale Venues and locations

default watermark

Striking and eye-catching displays in the retail environment can be easily damages or bruised in the retail and point of sale areas if not protected adequately.

Landor Liquid lamination is both an environmentally favourable solution but also offers longer term sustainability to the printed image.

Whether its at the counter, on the floor, walls, doors, lifts, escalators and even ceilings. Landor Liquid lamination provides that certain enhancement as well as protection from premature damage or degradation.

We also have an anti microbial solution that will further protect the transmission of bacterial with our ISO 22196 certified coatings.
